

PROGRAM DEVELOPMENT OR ENHANCEMENT

Contract Security Officer Program Optimization

Senior leadership frequently challenges the uniformed security officer budget. How can I defend the program cost? How can I make sure that I have the right contract in place at the best price? What are the best quantifiable KPI measurements to demonstrate the value of our security contract as well as evaluate the performance of the security officers?

*By clearly defining and refining the security **department goals**, Security can **ensure the value** of the security officer program by showing it is maintaining desired levels of performance and cost.*

How Can SEC Help?

- Examination of vendor contract to provide a roadmap to maximize quality and trim unnecessary costs.
- Create an internal audit tool to ensure compliance with the current contract.
- Provide KPI options based on the organization's performance goals.
- Develop a process for managing and resolving vulnerabilities and problems specific to the security officer program across the entire enterprise.

Transformation

A Security Officer Program that is right-sized for the organization, including the budget; and one that strives to continually improve quality to provide maximum protection.

The SEC is the only research and advisory firm that specializes in corporate security and is comprised of former security executives. We understand the issues and work to overcome obstacles to program and leadership success.
